Whispering

I Can Make a Mess Like Nobody's Business

So we take the night
If we fall then we're done
So then take it right
This one chance we've got, don't mess upFight with pride
And fight to the end
Strike on
This is your chance
Make it worth your lifeSo be careful what you see
It can mean the end
Be careful what you read
They're planning the end of youFight with pride
And fight to the end
Strike on
This is your chance
Make it worth your lifeFight with pride
And fight to the end
Strike on
This is your chance
Make it worth your lifeFight with pride
And fight to the end
Strike on
This is your chance
Make it worth your life
