

# Holes

## Electric Guest

You turned on me thought  
I didn't know, oh...  
And you seen thought my holes  
Stuck on my own, oh...  
All that I need, founded and she  
Calling me in  
Seems like the way, still I'm afraid  
Should I let begin? oh...We fall from a high,  
Said the goodbye  
Believed it was the time,  
Away I go, no...  
Long for the day that I can say  
"Come home to me."  
Seems like the way,  
Patch of decay  
In the alien breeze.
