Lights Out

Jessica Sutta

I can see you
But I know you by your touch, your touch, your touch
I can hear you but the music is enough, enough, enough
To know what's happening tonight
So I'mma put my hands higher and higher
We made through the day alive
So I'mma put my hands higher and higherI want your love to set me free
Baby, be the only one that I'll ever need
A shooting star for you to see
So keep the lights low
When you're next to me
Oh Oh Oh Oh Oh Oh Oh
Let tonight take over now
'Cause I can feel u better
When the light's out
Turn the lights out'Cause I can feel u better
When the light's out - (turn the lights out)
'Cause I can feel u better
When the light's outWhen I'm near you
I can always feel the rush, the rush, the rush
I'll never leave you
Cause your eyes say enough, enough, enough
To know what's happening tonight
So I'mma put my hands higher and higher
We made through the day alive
So I'mma put my hands higher and higherI want your love to set me free
Baby, be the only one that I'll ever need
A shooting star for you to see
So keep the lights low
When you're next to me
Oh Oh Oh Oh Oh Oh Oh
Let tonight take over now
'Cause I can feel u better
When the light's out
Turn the lights out'Cause I can feel u better
When the light's out - (turn the lights out)
'Cause I can feel u better
When the light's outWhen I close my eyes
It's taking me high

You know how to turn me inside out
I am holding you tight
And It's outta sight
Wherever I'll be even now, now, nowI want your love to set me free
Baby, be the only one that I'll ever need
A shooting star for you to see
So keep the lights low
When you're next to me
Oh Oh Oh Oh Oh Oh Oh
Let tonight take over now
'Cause I can feel u better
When the light's out
Turn the lights out'Cause I can feel u better
When the light's out - (turn the lights out)
'Cause I can feel u better
When the light's out
