

Night People

Dio

Do you like the dark?
Do you like the way it moves?
Do you come alive when neon kills the sun? Are you hypnotized?
Part of the illusion
Oh, see how they run It's the mystery, poetry and passion
Innocence and fashion
Revolution, evolution ways Night people Are you satisfied
With the lessons that you're learning?
Is the fire really burning? Do you know? Hey, dream child, promises are spoken
And promises are broken, electric eyes
That never let you see them in the day Night people, night people Do you like the dark?
Do you like the way it moves?
Do you come alive when neon kills the sunshine? Are you hypnotized? Innocence and fashion
Promises and passion, evolution
Revolution ways and everybody stays Night people, night people, yeah Do you like the dark?
Do you like the way it moves?
Are you hypnotized?
Paralyzed, revolution Hey dream child
You got electric eyes
Hey dream child Night people, night, night people
