

# Deceiver of Fools (live)

## Within Temptation

He feeds on fear  
He feeds on hate  
He rules again  
With growing hate  
He will gain their faith again  
Light in the darkness is too small to see  
There's always a sparkle of hope  
If you just believe He told the tale so many times  
About the dream not meant to be  
In the world of the free  
He plays with your mind  
As faith for the future faded fast  
He grows strong with their displeasure  
It sets him free Deceiver of hearts  
Deceiver of fools  
He rules with fear  
Deceiver of hearts  
Deceiver of fools  
He rules again He feeds on fear  
Poisons the truth  
To gain their faith  
To lead the way  
To a world of decay He rules your heart  
He will sell your soul to the grave  
Without a hesitation to make  
He belongs to the dark Please awake  
And see the truth  
He can only be  
If you believe what he tells you  
Remember who you are  
What you stand for  
And there will always be a way In my heart there is a place  
In my heart there is a trace  
Of a small fire burning  
A sheltering ray shines through this night  
Although it's small, it's bright  
But darkness is lurking  
He will sell your soul to bitterness and cold  
All fear him Deceiver of hearts

Deceiver of fools  
He rules with fear  
Deceiver of hearts  
Deceiver of fools  
Shall he rule again?
