She Dgaf

Internet, The

Her state of mind is constantly changing
To Hell and back
She drives, switching lanes
Not knowing what she has till she knows where she's going
If she can just get passed this traffic
She tries and tries to peace of mind
But these days in your face
So she stays
Blowin' smoke in the sky
Cause it's her only vice
I wonder why
[Hook:]
She blows smoke in the air, in the air, in the air
Cause she don't give a fuck [x4] no
She shaved off all of her hair, of her hair, of her hair
Cause she don't give a fuck [x4] noSome people seen the way she is changing
They don't know the struggles that she was raised with
So shut the fuck up
Just shut the fuck yup
Stop thinking that you know everything
You don't and you never will so just let it go
And be free as long as you're kind and and you've been born with the fight
So don't wonder why[Hook:]
She blows smoke in the air, in the air, in the air
Cause she don't give a fuck [x4] no
She shaved off all of her hair, of her hair, of her hair
Cause she don't give a fuck [x4] no
