Blackout

(hed) P.e.

I blackout
Don't you put words in my mouth
Don't try to shut me up
I'm not about plastic skin
I gotta get out, gotta get out, in
What about those things you said to me?
What about the time we've wasted?
Everyday's just like the one before
Every time I see your face
I blackout
You know I gotta get in
Just let me in
You know I gotta get in
But, I gotta know now, where do I fit in?
Blackout
You know I gotta get in
Just let me in
You know I gotta get in
But, I gotta know now, where do I fit in?
Don't you tell me what to think
You'll never know how I should feel
I see through plastic skin
I gotta get out gotta get out, in
What about the 5 o'clock news?
What about the Sunday paper?
Every day's just like the one before
Every time I turn the page
I blackout
You know I gotta get in
Just let me in
You know I gotta get in
But, I gotta know now, where do I fit in?
Blackout
You know I gotta get in
Just let me in
You know I gotta get in
But, I gotta know now, where do I fit in?
I can't breathe
My heart is freezing

While we pray
My soul is packing it's bags and leaving
Blackout
Blackout
What about those things you said to me?
What about the time we've wasted?
Everyday's just like the one before
Every time I see your face
Blackout
You know I gotta get in
Just let me in
You know I gotta get in
But, I gotta know now, where do I fit in?
Blackout
You know I gotta get in
Just let me in
You know I gotta get in
But, I gotta know now, where do I fit in?
I gotta know now, where do I fit in?
I gotta know now, where do I fit in?
