

Slaves of the New World

Steelhouse Lane

Too bad, lights go out
And there's no more deals to talk about
That's it, when the rain don't come
There's nothing for your daughter

No sun, where's the sky
We just can't breathe when the river's all dry
Who are we gonna call, what we gonna say
Do it now, don't fade away

Humbardaa....
Say your prayers, face the truth
You're acting like a fool
Rattle your cage, one more time
Follow that golden rule

Look out, here it comes
One more dance to a different drum
Stand up, turn around
Suddenly it's over

Blood lies at every door
There's nothing sacred anymore
Who are we gonna call, what we gonna say
Do it now, don't fade away

Humbardaa..

Close your eyes, don't hear the truth
Just ignore the tears
Take your soul to the gaping hole and watch it disappear
Enough for the left, enough for the right
Enough for the black, enough for the white
All of us equal, and all of us stand in the light

Slaves of the new world, (of the new world)
Slaves of the new world
Where are we going?
Slaves of the new world

Have mercy.. have mercy... Transition... complete

Solo

Humbardaa...

Close your eyes, don't hear the truth
Just ignore the tears
Take your soul to the gaping hole and watch it disappear
Enough for the left, enough for the right
Enough for the black, enough for the white
All of us equal, and all of us stand in the light

Slaves of the new world, (of the new world)
Slaves of the new world
Where are we going?
Slaves of the new world

Slaves of the new world, (of the new world)
Slaves of the new world
Where are we going?
Slaves of the new world.....

Slaves, slaves of the new world.....
