I Want Nothing

Kerli

Having the time of your lives
Happy within your disguise
Watch how the child in you dies
Circles inside on your mind
There is more than meets the eye
Life is more than meets the eye
Strange, how you got it
But you're still coming back for more
But I want nothing
If you think that you got it
Why they're treating you like a whore?
And I want nothing
Faking it all of the time
Conscience, it cuts like a knife
When will you start to realize?
We don?t have time on our side
There is more than meets the eye
Hits you right between the eyes
Strange, how you got it
But you're still coming back for more
But I want nothing
If you think that you got it
Why they're treating you like a whore?
And I want nothing from you
And I want nothing from you
I want nothing
There is more than meets the eye
Hits you right between the eyes
Strange, how you got it
But you're still coming back for more
But I want nothing
If you think that you got it
Why they're treating you like a whore?
And I want nothing from you
And I want nothing from you
And I want nothing
Strange, how you got it
But you're still coming back for more
But I want nothing

If you think that you got it
Why they're treating you like a whore?
And I want nothing from you
And I want nothing from you
And I want nothing
Strange, how you got it
But you're still coming back for more
But I want nothing
If you think that you got it
Why they're treating you like a whore?
And I want nothing
