The Big Time

Elan

I'm taking you out, show you the big time, baby. I'm
working it out, so you can come with me maybe.Show you what we do when I'm not at home with you.
So you can truly see what t's like to be me.Are you ready for the time of your life?
I am ready to have you by my side.We'll travel around, show you the worls, baby.
We'll walk all around and see what we find there,
maybe.'Cause this is what we see when you're not right
here with me. So you can truly be what you want
when you're with me.Are you ready for the time of your life?
I am ready to have you by my side.
