

You Are the Universe

The Brand New Heavies

Advisory - the following lyrics contain explicit language:

You're the future
And you've come for what is yours
The hidden treasure
Locked behind the hidden doors And the promise
Of a day that's shiny new
Only a dreamer
Could afford this point of view But you're a driver
Not a passenger in life
And if you're ready
You won't have to try 'cause You are the universe
And there ain't nothin' you can't do
If you conceive it, you can achieve it
That's why, I believe in you, yes I do You're a winner
So do what you came here for
The secret weapon
Isn't secret anymore You're a driver
Never passenger in life
And when you're ready
You won't have to try 'cause You are the universe
And there ain't nothin' you can't do
If you conceive it, you can achieve it
That's why, I believe in you, yes I do You are the universe
And there ain't nothin' you can't be
If you conceive it, you can achieve it
That's why, I believe in you, and I believe in me Yes I do
Believe in you, I do
Yeah, I do You're a driver
Not a passenger in life
And when you're ready
You won't have to try 'cause You are the universe
And there ain't nothin' you can't do
If you conceive it, you can achieve it

That's why, I believe in you, yes I do You are the universe
And there ain't nothin' you can't be
If you conceive it, you can achieve it
That's why, I believe in you, and I believe in me You are the universe
And there ain't nothin' you can't do
If you conceive it, you can achieve it
That's why, I believe in you You are the universe
And there ain't nothin' you can't be
If you conceive it, you can achieve it
That's why, I believe in you, I believe in me You are the universe
And there ain't nothin' you can't do
If you conceive it, you can achieve it
That's why, I believe in you You are the universe
And there ain't nothin' you can't be
If you conceive it, you can achieve it
That's why, I believe in you
