

Wasn't the Summer Short?

Johnny Mathis

Wasn't the summer short?

Didn't it seem to fly?

Where are the nights we thought we'd find

Our love under summer skies? Didn't that careless moon

Forget to find us?

Didn't the month of June

Fail utterly to remind us that...Autumn comes all too soon.

Midsummer madness dies.

Nothing is quite the same when leaves

Turn gold 'neath September skies.

Why did we let this magic time go by?

Wasn't the summer short?

Didn't it fly?
