In the Rain

Billy Eckstine

Years go by, still I recall
How we met one day
When you passed my way
In the rainMost of all I can forget
How you thrilled me then
With each kiss we shared
In the rainEver though, it thundered so
Our hearts were full of joy
Heaven held fulfilled the dreams
Of gallant boyWhen it rains, I'll still recall
How we found romance
When we met by chance
In the rain, in the rain
