

Guys Like You Make Us Look Bad

[blessthefall](#)

You scream don't look.
You scream don't touch.
What have they done,
What have I not.

Cuz every time I think about your voice I,
start to tremble,
and my throats aching.

Cuz any time you
need a shoulder,
I'm right here.
You just gotta find a way.

A way!

As she sits alone,
tries to adjust.
She cries please let me go,
I won't tell anyone.
You scream don't look,
Oh please god don't touch.

You scream don't look.
You scream don't touch.
What have they done,
What have I not.

Cuz every time I think about your voice I,
Start to tremble,
and my throats aching.

Cuz any time you,
need a shoulder.
I'm right here,
you just gotta find a way.

Oh god, please help her.
Get her out of this. x2

Oh god.
Help her.

Help.. Us
