This Electric Feeling

Sheppard

Come closer if you got the time
The obsession makes me lose my mind
And I'm thinking that there's something wrong with me

You walked across the room
Now I try myself to fall it through
In a minute Ill be bending on my knees

But what I felt was high
Maybe just a couple of times
And I know whats right
When you finally opened my eyes

This electric feeling that I get
Is taking all of me
I cant let go now I possess
It dumps reality
And I need to find the answer
And I need to find the answer

Let show I never drink with you
That doesn't mean Ive got a night to prove
But there's nothing wrong with me
Now I know you can feel it too
Even though you wont admit the truth
And I'm feeling that is something that you need

So Ill take my time , open up a bottle of wine
And if you incriminate
Wont you just give me a sign?

This electric feeling that I get
Is taking all of me
I cant let go now I possess
It dumps reality
And I need to find the answer
And I need to find the answer

Could it be, could it be?
That you're falling for me?

But how do you hold the key
To answer the heart until its free?

This electric feeling that I get
Is taking all of me
I cant let go now I possess
It dumps reality
And I need to find the answer
And I need to find the answer
And I need to find the answer
And I need to find the answer
