Shine on You (feat. Esser)

[Satin Jackets](#)

If you're looking for me
You know where I'll beI'll be looking at the moonlight
Climbing in the seaYou've been waiting all summer
To carry it throughI'll be a man in flames
Shining my light on youI just wanna shine
I just wanna shine
On youI just wanna shine
I just wanna shine
On you
I wanna know
Baby, when you come alive
Set me alive
I just wanna make you shine
Ooh ohI can feel the ocean
Running through the nightLet it carry us to nowhere
Bring me back to lifeYou've been waiting all summer
To make it throughI'll be a man in flames
Shining my light on youI wanna know
Just tell me when you come aliveGive me a sign
Tell me how to be alive
I wanna know
Baby, when you come aliveSet me alive
I just wanna make you shine
Ooh ohShine your light, it's alrightShine your light all nightI wanna know
Just tell me when you come aliveGive me a sign
Tell me how to be aliveI wanna know
Baby, when you come aliveSet me alive
I just wanna make you shine
Ooh ohShine your light, it's alright
Shine your light all night
