

Pill Hill Serenade

[Mark Lanegan](#)

Tail lights through silver rain
Somebody's excited to be goin' away
Spring like December on the corner now
Let the memory fade and I'll forget Well, I hope she's not alone
Smiling everywhere she goes, so sweet
Then I remember she's a little older now
I'd let that fade but I don't know how And when the sun comes up dead
You get sick of it, makes a howling in your head
All the time Springtime or December, can't find cover now
Children they get excited when the sun comes around
I'm gonna walk in silver rain, look for mine the same
Walk for miles 'til the memory fades
