Anything Can Happen

Finn Brothers

The day has begun And I stumble to the front There's no real control Of a random eventAnd I will take my chances Just anything can happen I don't believe it's over 'Cos anything can happenI could never give it up I could never relent And I can't wait to see What will happen to me nextI will take my chances 'Cos anything can happen I don't believe it's over 'Cos anything can happenIt doesn't matter what we did wrong Makes no difference to me I see the light in your eyes And you're dancing freeAnd I'm coming down today To gather in the pieces Give in to the mysteryAnd I will take my chances 'Cos anything can happen Don't believe it's over 'Cos anything can happenOne day, I Someday, IAnything can happen Yeah, anything can happen I will make it shine I will make it rain sometime
