

# Play On

## Great White

I sent you a rose as a promise sign  
It's my love, for you I save  
In this world we build together  
It's for you, a promise made I believe in you  
in what you say and what you do  
'cause you're all my tomorrows  
you're all that I live for today So play on, sing a song  
let your melody wash over me  
Play on, I'll sing along  
over and over and over...  
for you and me Everything about your face  
I keep inside a little place  
in my heart for you  
Every time I see you smile  
It keeps me for a little while  
something to hold on to I believe in you  
in what you say and what you do  
'cause you're all my tomorrows  
you're all that I live for today So play on, sing a song  
let your melody wash over me  
Play on, I'll sing along  
over and over again When we make love you take me  
take me to a higher place  
and it's never enough  
I want you, I need you...  
Ohh Yeah (Solo) play on, sing a song  
let your melody wash over me  
Play on, I'll sing along  
over and over again  
play on, sing a song  
let your melody rain over me  
Play on, I'll sing along  
over and over and over  
for you and me Everything about your face  
I keep inside a little place
