

Parachute

[Kris Allen](#)

Come after me, I've been slippin' through the cracks
I'm dug in deep, and nothing's makin' sense
You're the rope I grab a hold
But I can barely reach Oh, you've got me falling with a parachute
Saving me from black and blue
Oh, you've got me floating with the life vest
Both hands on my chest
To keep grounded till I can breathe, oh oh oh
Don't you ever give up on me! I've tried to hide it, I feel it in my bones
I've tried to fight it, yeah, it's so hard to fight alone
But you're the net to catch my breath
When I can't see the truth Oh, you've got me falling with a parachute
Saving me from black and blue
Oh, you've got me floating with the life vest
Both hands on my chest
To keep grounded till I can breathe, oh oh oh
Don't you ever give up on me! Hit the ground running, running
Tell me that you're comin', comin'
I can feel, I wanna feel
Your heartbeat next to me Hit the ground running, running
Tell me that you're comin', comin'
I can feel, I wanna feel
Your heartbeat next to me Hit the ground running, running
Tell me that you're comin', comin'
I can feel, I wanna feel
Your heartbeat next to me Oh, you've got me falling with a parachute
Saving me from black and blue
Oh, you've got me floating with the life vest
Both hands on my chest
To keep grounded till I can breathe, oh oh oh
Don't you ever give up on me, oh oh oh You keep grounded 'til I can breathe, oh oh oh
Don't you ever give up on me! Come after me
'Cause I've been slippin' through the cracks
I'm dug in deep, and nothing's makin' sense
