

Start a Revolution

Devilskin

Hey kids, its time to roll
That's how we lost control
Wasting precious time
I couldn't tell you why

(come alive) And the time is right
(shut the lights) As I lead the blind
Took the knife for the sleeping, the happy
But the days are overlapping

I'll start a revolution
When I get up in the morning,
I'll start a revolution
When I get up, get out

Start a revolution, start a revolution
When I get up in the morning
Start a revolution, tart a revolution
When I get, get out.

Everyday you get weaker, Stand up cos we need you
Every day is another reason to do it all over again

(come alive) And the time is right
(shut the lights) As I lead the blind
Took the knife for the sleeping, the happy
But the days are overlapping

All the things that they tell you not to
To walking in the shoes but you stumble, don't you
Four, five, six a.m
I'm up, I'm out
