

# Face Up

## Rancid

Well it's just another day getting into trouble  
Chasing all the booze with another bottle  
When I went into a bar looking for some quiet  
I said the wrong thing and it turned into a riot  
Hand cuffed, face cut,  
I'm lucky to wake a face up  
Hand good, hand good, face good, face good  
I'm lucky to wake a face up  
When I hit that summer with an angel on my shoulder  
Another day living, another day older  
Thank God I made it out this far  
Tell my story to the boys with a guitar  
Hand good, hand good, face good, face good  
I'm lucky to wake a face up  
Hand good, hand good, face good, face good  
I'm lucky to wake a face up
