

Generation Indigo

Poly Styrene

Generation indigo, here we go, here we go
Generation indigo, here we go, here we go
Generation indigo, here we go, here we go
Generation indigo, here we go, here we goA brand new generation
From every single nation
From every corner of the globe
Comes generation indigoGeneration indigo, here we go, here we go
Generation indigo, here we go, here we go
Generation indigo, here we go, here we go
Generation indigo, here we go, here we goA brand new generation
Bring out the transformation
Endless possibilities we know
From generation indigo
Generation indigo, here we go, here we go
Generation indigo, here we go, here we go
Generation indigo, here we go, here we go
Generation indigo, here we go, here we goLive it up, live it up, everybody live it up
Live it up, live it up, every last one live it up
Generation come and generation go
Oh, this is the generation of indigoA brand new generation
To save us from extinction
Let's give it up, give it up
For generation indigoGeneration indigo, here we go, here we go
Generation indigo, here we go, here we go
Generation indigo, here we go, here we go
Generation indigo, here we go, here we go
Generation indigo, here we go, here we go
Generation indigo, here we go, here we go
Generation indigo, here we go, here we go
Generation indigo, here we go, here we goGeneration to generation
Nation to nation
