

You Can't Always Not Get What You Don't Want

[Tracy Bonham](#)

Little man big heart said to big man little heart
"I got what I want, I got what I want, I got what I need
But you can't always not get what you don't want
Flaunt what you got and what you got flaunt
Speak double doom as much as you want
But you can't always not get what you don't" But you might get what you
But you might get what you
But you might get what you
But you might get what you need Street smart big mind said to little learned book brain
I got what I want, I got what I want, I got what I need
But you can't always not get what you don't want
Flaunt what you got and what you got flaunt
Speak double doom as much as you want
But you can't always not get what you don't But you might get what you
But you might get what you
But you might get what you
But you might get what you
Get what you need
Get what you need
Get what you need
You can't always not get what you don't want
You can't always not get what you don't want
