Slow Walk

Sil Austin

dont miss this moment don't let it pass by you
dont miss this moment dont let it pass by you
time keeps moving and it never rewinds
dont miss this moment dont let it pass by you

tell me what you want tell me what you see

where you wanna go what you wanna be if you have a dream
you can make it there with a lot of work and a lot of prayer
if you take you time gotta be precise gotta have a plan
double check it twice wait, hold up, slow down still gon' need advice
someones gone before maybe talk to them then
after you do go and talk to him great is gonna come
maybe not to night take your time today futures looking bright
