

# Another Is Waiting

## The Avett Brothers

It's a fake, it's a hoax  
It's a nowhere road where no one goes  
Anywhere, anyhow  
Where you follow when your heart rate down  
She's a rose, she's a queen  
But she's starin' at a magazine  
In the dark, on the path  
Where they doctor every photograph

[Chorus]  
Another is waiting  
She isn't saying anything

If you care, if you like  
Well, I'm standing in the lantern light  
With our weapons and our love  
And I use them both to cover up

[Chorus]

But I love you and I care  
So you got to get off that conveyor belt  
If I could  
I would come right in and take you off myself

It's a fake, it's a con  
The nature of the road you're on  
Lets me see your skeleton  
Well before your life is done

[Chorus]
