Follow You

Jackie Greene

Girl, you're just a kid
You can't come around here after what you did
Cause I heard the news
And it ripped my heart from my guts down through my shoes

So don't open your mouth
Don't let a word slip out
I don't want to hear your pointless point of view
Stay right there,
No, don't you go nowhere
Don't make me get up, don't make me follow you

Girl, there was a time
When crossing you would've never crossed my mind
But pride is at stake
And that's the only thing that I won't let you take

Yes, I've got the nerve
You're gonna get what you deserve
I'm tired of being the one you're lying to
Don't you run
You can't outrun a gun
Don't make me get up, don't make me follow you
I said woman don't make me get up, don't make me follow you

Girl, you made me hate
And when I go to hell, you can meet me at the gate
Cause I've, I got plans
You'll need the devil himself just to save you from my hands

No I ain't your friend
But I guess I loved you till the end
And I know exactly what I have to do
There will be no help
Cause you did this to yourself
Don't make me get up, don't make me follow you
