Winter Light

Arc Of Doves

Hearts call, hearts fall
Swallowed in the rain
Who knows, life grows
Hollow and sereneWandering in the winter light
The wind can act the same
They're witness to salvation
And life starts over againNow the clear sky is all around you
All around
Love's shadow will surround you
All through the nightStar glowing in the twilight
Tell me true
Hope whispers and I will follow
Till you love me tooAh ah ahNow the clear sky is all around you
All around
Love's shadow will surround you
All through the nightStar glowing in the twilight
Tell me true
Hope whispers and I will follow
Till you love me tooAh ah ah ah ah
Ah ah ah ah ah
