

Zebra

Beach House

you know you're gold
you don't gotta worry now honey
oasis child
born and so wilddon't i know you better than the rest
all deception, all deception from youyour love is stag
in the white sand
Wilderness for miles
eyes so mild and wisedon't i know you better than the rest
all deception, all deception from youanyway you run, you run with poise
black and white horse
arching among usyou love is stag
in the white sand
oasis child
born into a mare
don't i know you better than the rest
all deception, all deception from youWilderness for miles
eyes so mild and wise
oasis child
born and so wilddon't i know you better than the rest
all deception, all deception from youanyway you run, you run with poise
black and white horse
arching among us
