## Zebra

## **Beach House**

you know you're gold you don't gotta worry now honey oasis child

born and so wilddon't i know you better than the rest all deception, all deception from youyour love is stag in the white sand

Wilderness for miles

eyes so mild and wisedon't i know you better than the rest all deception, all deception from youanyway you run, you run with poise black and white horse

arching among usyou love is stag in the white sand

oasis child

born into a mare

don't i know you better than the rest all deception, all deception from youWilderness for miles eyes so mild and wise oasis child

born and so wilddon't i know you better than the rest all deception, all deception from youanyway you run, you run with poise black and white horse arching among us
