

# My First Kiss ( Ft. Kesha )

[3OH!3](#)

My first kiss went a little like this  
Mwah mwah and twist  
Mwah mwah and twist Well my first kiss went a little like this  
And twist  
And twist I said no more teachers  
And no more books  
I got a kiss under the bleachers  
Hoping that nobody looked  
Lips like licorice  
Tongue like candy  
Excuse me miss but can I get you out your panties In the back of the car,  
on the way to the bar  
I got you on my lips  
(I got you on my lips)  
At the foot of the stairs  
With my fingers in your hair  
Baby, this is it She won't ever get enough  
Once she gets a little touch  
If I had it my way  
You know that I'd make her say  
Ooh, ooh  
She won't ever get enough  
Once she gets a little touch  
If I had it my way  
You know that I'd make her say  
Ooh, ooh My first kiss went a little like this I said no more sailors and no more soldiers  
With your name in a heart tattooed up on the shoulders  
Your kiss is like whiskey, it gets me drunk  
And I wake up in the morning with the taste of your tongue In the back of the car on the way to the bar  
I got you on my lips  
(I got you on my lips)  
At the foot of the stairs  
With my fingers in your hair  
Baby, this is it She won't ever get enough  
Once she gets a little touch  
If I had it my way  
You know that I'd make her say  
Ooh, ooh  
She won't ever get enough

Once she gets a little touch  
If I had it my way  
You know that I'd make her say  
Ooh, oohMy first kiss went a little like this  
And twist, and twist  
Well, my first kiss went a little like this  
And twist  
And twistYeah, she won't ever get enough  
Once she gets a little touch  
If I had it my way  
You know that I'd make her say  
Ooh,She won't ever get enough  
Once she gets a little touch  
If I had it my way  
You know that I'd make her say  
Ooh, ooh  
She won't ever get enough  
Once she gets a little touch  
If I had it my way  
You know that I'd make her say  
Ooh, oohShe won't ever get enough  
Once she gets a little touch  
If I had it my way  
You know that I'd make her say
