

# Very First Time

## John Fullbright

Don't answer the phone  
Don't answer the door  
Pretend nobody lives around here anymoreNo need to get up  
I brought the wine  
And I feel alright  
For the very first timeAnd I believe I'm protected  
By the things I can't see  
I don't believe in Jesus  
I'm told he believes in me  
And I think that's good  
Cause it's a long hard climb  
And I feel alright  
For the very first timeAnd the things I don't remember  
Don't matter anymore  
And the things I need to do  
Are all waiting at the doorSo don't answer the door  
Don't pick up the phone  
Don't leave me here  
Cause I hate to be alone  
Between love everlasting  
And meaningless rhyme  
Sits feeling good for the very first timeI feel alright for the very first time
