

Nolita (feat. Active Child)

Gilbere Forte'

[Hook: Active Child]

Everything reminds me of you

I think I'm losing my mind

Staring at your face in the rearview

And I can get all of the time

Nolita, Nolita

Nolita

Nolita, Nolita[Verse 1: Gilbere Forte]

Yea, lookin back on a life that I thought that I could never have

Spent time with a woman I thought that I could never match

Broke all my ties to the chick that caught them feelings fast

I fall in love to that mother skunker, jumped all on my back

That's when I meet you, the girl with the dragon tattoo

Black eyes, cold hips in a black coupe

With that fast zoom and that Vera Wang

In them Christian Lou's

With a voice full of heaven I stand to lose

With a heart to say I don't steal shit

I'm a real bitch

Independent, no dick goin' make me kill this

So pressed up on her

Ride right at the moment, she said if you want it

You better holy matrimony, woah

I'm cool, rolling with them punches

But I'm only down for your loving

Back rub when we cuddling

My thug passion, you be lovin it

Get lost in the town, we make the time

That's when it all happen, champagne glasses

Drunk off passion

With a little bit of lust and a little bit of you

And a little bit of face sucking off this mood

You keep your head down with no panties on

Adina Howard with no cameras on

Your light's low but your body's on

You tie me to the bed post

Fuckin me off the edge though

Bathtub, hot salt water

Rose pedals with that blunted sour

Talkin' dirty in the darkest hour
With all of my best
I put your engagement ring on the desk
Everything was set
But then you left[Hook: Active Child][Verse 2: Gilbere Forte]
I was left in the dark
I was left in the cold
I was left getting old
With no idea why you kept a secret so long
It's been three years since I've seen you
And my heartbeat still needs you
I can't find a number to reach you
And your whereabouts to meet you
So I gave up, hit the road
Concert after concert
And city after city, getting drunk with some stupid hoes
Ridin through the city with the big lights
Downtown, tryna feel life
In a glora kadan with a glass of Henny
And a bad chick to my right
Smellin like my past
What the fuck's in my drink
When I realized what I'm next to
Matching dragon tattoos
It was you, it was you all along
And you was fuckin' yo ex girl
A body of lies and I'm blessed girl
And I hate loving yo sex girl
I was yo experiment but I died, you kicked dirt on my grave
And for what? To get a taste for dick you fuckin bitch[Bridge: Active Child]
Everything reminds me of you
I think I'm losing my mind
Staring at your face in the rearview
And I can get[Hook: Active Child][Outro: Active Child and Gilbere Forte]
Nolita, Nolita
Nolita
Fucked up
You know, I ain't even really
See it comin from somebody like that
You know I never liked love
I fuckin hate me
