

# Disorder (Moonlight Matters Remix)

Owle

So Tired  
Steep In The Dark  
You've Shown me the way  
And I Came  
Your words are  
Whispers In The Night  
Lead Me Away  
And I Came You put my broken bones  
In a safe place  
my broken bones  
sleep with you  
my broken bones  
In a safe place  
my broken bones  
sleep with you Undecided  
Sleep In The Dark  
You've shown me again  
And I came  
Your words are  
Whispers In The Night  
Lead Me The way  
And I Came You put my broken bones  
In a safe place  
my broken bones  
sleep with you  
my broken bones  
In a safe place  
my broken bones  
sleep with you Disorder Disorder  
If I lose your trace  
In the night's dark maze  
If You  
You're not here Disorder  
If I lose your trace  
In the night's dark maze  
If You  
You're not here You've shown me the way  
I called your name  
You've shown me the way

And I came You've shown me the way  
I called your name Disorder  
Disorder  
Disorder Disorder  
Disorder
