

Melody (feat. play n skillz & Fingazz)

Far East Movement

(chorus) I suppose me and you could just drift away
and leave behind our former selves
besides
i read your mind
i could tell you wanna fuck with me i'll do you right
until you say
wow you
throw it back lets hear the melody
and if i
i do that i know you never leave
throw it backgirl
throw it back
throw it back
lets hear the melody
that way
don't you stop
don't you stop
singing the melody(rap verse)
girl its time to set the mood and dip the coup in your pink
we could take the seat covers off
its just you and me
cuz im mr nice guy
sparking a remedy
im going longer with my shakespeare til i hear you sing
get you wetter than a well while you waiting to excel
now you sounding like adele while i'm rolling in the deep
pushing on your swells
but dialing on your cell
if thats your man he better leave a message at the beep
(you know you need my love)
collaborating with you
lets make a smash or two
so dim the lights in the room
(you know you need my love)
your bra and panties off too
ooh yea i'm lovin the view
angels
cuz ima stroke to the groove and make you hit a note no autotune
cuz ima stroke to the groove and make you hit a note no autotune(chorus) I suppose me and you could just drift

away
and leave behind our former selves
besides
i read your mind
i could tell you wanna f with me
i'll do you right
until you say

i could tell you wanna f with me
i'll do you right
until you say
