Grey Harpoon

The Coral

Please don't let the light through my window
Keep the curtain shut, it brings me good luck
Please don't let the light through my window
Don't wanna see the day, I don't need it anywayPlease don't let the light through my window
Don't wanna see the shop or the wet bus stop
Please don't let the light through my window
The bells ring out for doom at this Sunday afternoonPlease don't let the light through my window
Please don't let the light through my window
Please don't let the light through my window
Please don't let the light through my windowPlease don't let the light through my window
Please don't let the light through my window
Please don't let the light through my window
Please don't let the light through my window
