

# Buried Alive

## Traitors

It's the season of the dark horse  
The ocean of night  
It's the angel of mercy  
Leaving you behind  
In this moment  
You ache for the cure  
You're pleading, save me  
Give me some more  
There's no shelter tonight  
Escape from the pain  
There is nothing  
No end to this game  
You're so wicked  
Evil and cruel  
It won't save you  
Save me from what I'm gonna do  
You're just a number  
You're just a victim  
A dead man walking  
Buried alive  
Hold out for a better hand  
Wait for better days  
You can feel it coming  
The fury of my rage  
My vengeance  
Will rain down on you  
There's no mercy, have mercy  
In what I'm gonna do
