

# Box Batteries

## Mac McCaughan

We'll get your stepdad's car  
Let's take it out to the cliffs  
Oh, we could start a fire  
And you can pretend  
You can pretend to be a witch  
Tip money in the ashtray  
Oh, it feels like we're rich  
We've got box batteries  
And the cheapest beer there is  
Hey! It's so dark  
And that's what we like  
We don't go too far  
Oh, but we might!  
We've got  
Box batteries  
Box batteries  
Box batteries I can see the smoke  
From the flagstones in the neighborhood  
Rising up above your hair  
And your hair looks good  
We're not so into nature  
Oh, but we're deep into the woods  
We can take some of this affection  
And the rest is understood  
The rest is understood It's so dark  
And that's what we like  
We don't go too far  
Oh, but we might!  
Yeah, it's so dark  
Tell the other kids we bite  
We don't go that far  
Oh, but we might!  
Oh yeah!
