

# For Her

## Dark Moor

After the war  
I was for ten of those years of yore  
Lost in the sea  
By a harsh god's agencyBut through the years  
Love urged my will to be solid and clear  
And for my wife  
I risked the loss of my life[Bridge I]  
For her  
I did not eat lotus from its twig  
For her  
The sorceress could not change me into pig  
For her  
I blinded the Cyclops' single eye  
The cannibals did not make me die  
All for her[Chorus]  
For her  
I worked my way  
For her  
I moved away  
From my Destiny  
Shipping across the sea  
For her  
I could resist  
In my frail heart, the Fortune's twist  
And I was the last  
True hero from the past  
Sailor, come here...  
I hear a trace of the ocean noise  
Fascinated...!  
The move of waves is like a voice  
Hero come near  
I can hold on with a tight rope  
Captivated...!  
I've got a hope
