

Dangerous Age

Bad Company

She's gettin' ready to dance tonight
Black high heels, a dress that clings on tight
Skin so smooth, a young man's dream
Lips so red, she's only just sixteen, yes she is
She knows where to go, she knows all the wildest parts of town
She walks in real slow, baby, ooh and every man's head turns around
Young girl has found her stage, watch out, she's a dangerous age
Headline news, front page, ooh girl, you're a dangerous age, yeah
She don't care what her parents say
She's out all night, holdin' 'til break of day, yeah
So outrageous, she's dressed to kill
And everybody, the girl just loves to thrill, ooh you know she does
She knows all the tricks, she got all the
moves and words to say
She's livin' with kicks, livin' to dance the night away
Young girl has found her stage, watch out, you're a dangerous age
Headline news, front page, ooh girl, you're a dangerous age
She'll play your fire, yeah she'll play you things you
won't understand
She wants to get high, yeah, she's a star, she's got it all planned, oh yeah
Young girl has found her stage, watch
out, she's a dangerous age
Headline news, front page, ooh girl, you're a dangerous age
You're a dangerous age, ooh yeah, you're a dangerous age
Ooh, watch out, ooh girl, you're a dangerous age
