Firewalker

Slapshot

Firewalker - a smooth talker, who likes to prey on the weak
Firewalker - a false promise to a disciple you seek
Firewalker - you're preaching wisdom, that you don't know at all
Firewalker - we're just waiting, for your idol to fallHaile Selassie is a fake
About that you'd better make no mistake
Christianity, fucks over its people on a bended knee
Let's see how much money we can makeFirewalker - Truth seeker, seeks a bigger lie
Firewalker - Faith healer, would rather see em die
Firewalker - Television, disease over the air
Firewalker - The second coming, but nobody caresThe chosen people are preaching hate
While the Vatican decides our fate
About that you'd better make no mistake
Terrorism, planting bombs in the name of god
There's only so much bullshit we can take
