

Pretty In Casts

Pig Destroyer

Advisory - the following lyrics contain explicit language:

Maybe she'll snap her wrists doing cartwheels
Or her ankle dancing drunken at some rave
Maybe she'll go through a windshield
And have twinkling bits of lass stuck in her face
She's so pretty in her casts
Damaged so perfectly
She's so pretty in her casts
The prettiest thing I've ever seen
I only get to hold her when she's injured
I only get to kiss her where she's sore
