

# Hold Your Ground

## Cavo

These sidewalks, this silence  
Its all around me  
This chaos, so quiet  
But I feel it risingDont close your eyes  
Dont be scared tonight  
Change is comingStand up and hold your ground  
Face the ending  
Well burn this whole world down  
Build a new beginning nowBeen waiting for this moment  
Well leave our memories  
The past is like poison  
This fire is all we need
