Everything I Need

From Autumn To Ashes

I have everything I need
Innocent victims
They don't exist, who told you this?
Outfit the nation with a blindfold
And a crucifix
Infinite wisdom
A bullet for the pacifist
Improving methods
To cripple the populace
In keeping up with the font stampede
I have a choice, I could keep retreating
Out I let it run me, run me right into the ground
In keeping up with the font stampede
I have a choice I could keep retreating
Out I let it run me, run me right into the ground
I have everything I need
We have no knowledge of
Cause and effect
Our fathers left behind
The ugliest inheritance

Innocent victim
Its every kid who has a wish
Oh, God, you're in for the
Greatest disappointment
In keeping up with the font stampede
I have a choice, I could keep retreating
Let it run me, run me right into the ground
In keeping up with the font stampede
I have a choice, I could keep retreating
Let it run me, run me right into the ground
The ground, the ground, the ground
I let it trample me
I let it trample me
I let it trample me
I have everything I need
Well, I have everything I need
Well, I have everything I need
Well, I have everything I need
