

The Wagon Song

Vic and Gab

My legs don't hold me
Hold me I'm on the ground
Since they told me
They found you somewhere lying down I called your name a thousand times
Your heart lost beat your eyes they sleep
And I
I want you back
I want you back This house is empty
And I hate this city
And what it's become
The guns keep firing
And I'm running out of ways to survive I called your names a thousand times
Your hearts lost beat and your eyes they sleep and I
I want you back
I want you back
