

Two People in the World

Little Anthony & the Imperials

There's just two kinds of people in the world
Why can't we fall in love?
Just two kinds of people in the world
They are a boy and girl Boy meets girl and love begins
Oh, what a feeling you get from within
Oh, I should know for I'm in love
I'm the boy, you're the girl, all the stars up above Just two kinds of people in the world
Why can't we fall in love?
Just two kinds of people in the world
They are a boy and girl Boy meets girl and love begins
Oh, what a feeling you get from within
Oh, I should know for I'm in love
I'm the boy, you're the girl, all the stars up above Just two kinds of people in the world
Why can't we fall in love?
Just two kinds of people in the world
Why can't we fall in lo-lo-love, love?
