

# Goodbye My Love

[Tyler Bates](#)

You look away from me again  
There's really nothing to explain  
Feel it in your kiss  
I guess this is good-bye my love  
The way I feel don't have a name  
The days and nights so filled with pain  
Thought that I would stay  
But I gotta say good-bye my love  
You used to laugh and say  
If you play, play for gold  
I didn't know that I would lose my heart  
And soul, I didn't know  
I won't regret the time we had  
I'll think of you and I'll be glad  
But this is the end  
One last kiss and then good-bye my love
