CHINA

LukHash

China all the way to New York
I can feel the distance getting close
You're right next to me but I need an airplane
I can feel the distance as you breatheSometimes I think you want me to touch you
How can I when you build the great wall around you?
In your eyes I saw a future together
You just look away in the distanceChina decorates our table
Funny how the cracks don't seem to show
Pour the wine in dear you say we'll take a holiday
But we never can agree on where to goSometimes I think you want me to touch you
But how can I when you build the great wall around you?
In your eyes I saw a future together
You just look away in the distanceChina all the way to New York
Maybe you got lost in Mexico
As you're right next to me, I think that you can hear me
Funny how the distance learns to growSometimes I think you want me to touch you
How can I when you build the great wall around you?I can feel the distance
I can feel the distance
I can feel the distance getting close
