Follow Your Dream

Cymphonique

I might be young but Iâ€™m in no rush to be grown
But Iâ€™ve got big dreams that I must choose right over wrong
Youâ€™re just like me, you could be whatever you want
Follow your dream, always stay true to your heart.

It takes hard work to make it
Just have faith in yourself
And if you fall get back up
Donâ€™t you blame no one else.

All you gotta do is dream
Everybodyâ€™s got a dream
Live your life and follow your dream
And never give up
All you gotta do is dream
Everybodyâ€™s got a dream
Live your life and follow your dream
And never give up.

We are all one
There should be no black and white
We do we all war?
We are all free and have rights
How could we judge?
When no oneâ€™s perfect at all
We all need love
Cause our right could tear us apart

Got to have goals just to make it
Itâ€™s our vision, donâ€™t let them take it
Just make the changes if you need to
Live your life
Let your dreams come true

All you gotta do is dream
Everybodyâ€™s got a dream
Live your life and follow your dream
And never give up
All you gotta do is dream
Everybodyâ€™s got a dream

Live your life and follow your dream
And never give up.

Life can be so hard sometimes
And feels like you just canâ€™t go on
Spread your wings, believe that you can fly.
If you just hold on, and reach for the sky.

All you gotta do is dream
Everybodyâ€™s got a dream
Live your life and follow your dream
And never give up
All you gotta do is dream
Everybodyâ€™s got a dream
Live your life and follow your dream
And never give up.
Never give upâ€¦
Follow your dream.
