

# I Don't Want To Be A Star

Lenny Kravitz

I don't wanna to be a star  
Just want my Chevy and an old guitar  
I don't wanna be a star  
I don't need the fat cigar  
My friends wonder what is wrong with me  
'Cause I don't get off on my fame  
I got so much confusion now  
Sometimes I don't even know my name  
I don't wanna to be a star  
Just want my Chevy and an old guitar  
I don't wanna be a star  
I don't need the fat cigar  
Too many distractions run through my brain  
So many girls they start to look the same  
Too many options no time to choose  
Too many clothes, too many shoes  
I've had the world I've done it upside down  
I played the part and I've been the clown  
Now it's my time, it's a brand new day  
To be myself in a different way  
I don't wanna to be a star  
Just want my Chevy and an old guitar  
I don't wanna be a star  
I don't need the fat cigar  
I got to meet all the wonderful people  
I drank with Dylan boy did we act a fool  
I got to meet all the fabulous people  
I got high with Jagger, it was really cool  
But I don't wanna to be a star  
Just want my Chevy and an old guitar  
I don't wanna be a star  
I don't need the fat cigar  
Never, never, never  
Never, never, never  
Never, never, never  
Never, never, never  
I said never no no, I said never no no no  
I said never no no, I said never no no no  
I said never no no, I said never no no no no

Never, never  
I don't wanna to be a star  
Just want my Chevy and an old guitar  
I don't wanna be a star  
I don't need no fat cigar
